EXCLUSIVE

Expressive, clear alignment – ideal for your spatial design

Photo KERAMAG

From standard to creative, luxury solutions.

You can do it all!

JOMO-TGA assembly systems have many different suitable uses.

All your bath design ideas can be implemented because of this system's variable flexibility. The completely preassembled and self-supporting JOMO-TGA parts allow you to reliably hold sanitary items like WCs and bidets in place; and they can be optimally positioned with water faucets and related drain connections.

The JOMO-TGA assembly system is suited for new constructions, expansions, and renovations.

The new JOMO Designer Line – the "EXCLUSIVE" Flush Plate

You don't need tools to assemble the new flush plate. Different models are available:
White
White/frosted chrome plating
White/gloss chrome plating
Gloss/gloss chrome plating, and
Frosted/frosted chrome plating

ELEGANCE

Elegant Design for your Bath – be inspired

The new SLK plus

Even after everything is installed, you can still select the flush plate model

AVANTGARDE

AVANTGARDE I

Improved Protection during Construction:

- stable protection during construction for improved form stability
- easy assembly and easily shortened because of its channeled surface
- the foldable lid allows you to open and close the construction protection at any time

JOMO-TGA-Construction Technology

- JOMO-TGA-Construction Technology consists of JOMO-TGA-Individual parts for the WC, wash basin, urinal, etc.
- The parts are self-supporting and suited for assembling solid and lightweight walls.
- The parts are ideal for barrier-free bathroom equipment.
- The parts can be used in all JOMO-TGA-media walls and naturally also in all standard lightweight construction walls.
- The depth-adjustable wall fixtures and the ability to swivel and fold allows for flexible installations in corner solutions, roof pitches, or rear wall offsets.

Side view

The proven JOMO-Flush Plates

Available in white or all standard sanitary colors or in chrome with LED backlighting and with start/stop or two-stage functions.

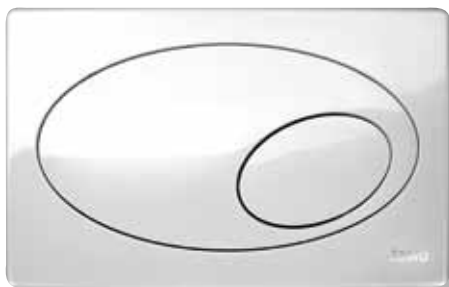

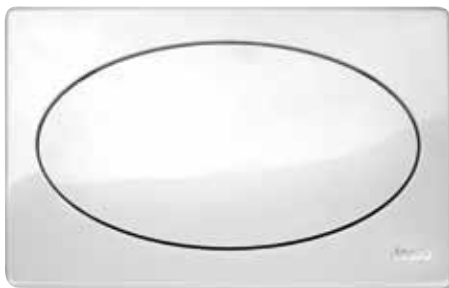

Photo KERAMAG

The JOMO-TOP 6 operated from above holding 6 liters of water

For areas that are just not the usual. Because of its limited 820mm construction height, ideally installed under window sills and in roof pitches.

JOMO-TGA-Construction Technology Standard Individual Units

173-10010100-00

JOMO TGA Individual Unit for wall-WCs, with SLK Plus built-in sanitary tank, two-stage flush technology, controlled from the front and a unit height of 1180mm

173-10010199-00

JOMO TGA Individual Unit for wall-WCs, with SLK Plus built-in sanitary tank, odor extraction, two-stage flush technology, controlled from the front and a unit height of 1180mm

173-10010200-00

JOMO TGA Individual Unit for wall-WCs, with TOP6 built-in sanitary tank, controlled from the top and a unit height of 820mm

173-10070100-00

JOMO TGA Individual Unit for wash basin, for single lever basin mixer, unit height 1180mm

173-10079100-00

JOMO TGA Individual Unit for wash basin, for AP wall fixture, unit height 1180mm

173-10140100-00

JOMO TGA Unit Element for urinals, for the installation of UP-Urinal flushing devices, unit height 1180mm

173-10300100-00

JOMO TGA Unit Element for urinals, for the installation of AP-Urinal flushing devices, unit height 1180mm

173-10870100-00

JOMO TGA Unit Element for urinals, for the installation of JOMO infrared controlled IRS-U with exterior work set, unit height 1180mm

173-10880100-00

JOMO TGA Unit Element for urinals, for the installation of JOMO conductive controlled TKS with exterior work set, unit height 1180mm

173-10040100-00

JOMO TGA Individual Unit for wall bidets, for single lever basin mixer, unit height 1180mm

173-10080300-00

JOMO TGA Individual Unit for bucket sinks, for wall fixtures, unit height 1,300 mm

Accessories

173-30010000-00

JOMO TGA wall fixture for individual elements, short, for wall fastening, 360° rotating, continuously variable angular adjustment, for 135-175mm construction depth

173-30020000-00

JOMO TGA wall fixture for individual elements, long, for wall fastening, 360° rotating, continuously variable angular adjustment, for 175-300mm construction depth

Barrier Free

173-20010100-00

JOMO TGA Individual Unit for wall-WCs, with SLK plus built-in sanitary tank for barrier-free construction, two-stage flush technology, controlled from the front, unit height 1180mm

Barrier Free

173-20070100-00

JOMO TGA Individual Element for wash basin, for single lever basin mixer, with UP odor trap, for barrier-free construction, unit height 1180mm

Barrier Free

173-20079100-00

JOMO TGA Individual Element for wall fixture, with UP odor trap, for barrier-free construction, unit height 1180mm

Barrier Free

173-20050100-00

JOMO TGA Individual Unit for support and hand rails, for barrier-free construction, unit height 1180mm unit width 365mm

Assembly

JOMO-TGA-Construction Technology Media Wall

▮ The JOMO-TGA-media walls are stand-alone assembly systems for accepting trade-overlapping parts.

▮ JOMO-TGA individual units can also be used.

▮ The JOMO-TGA-media walls are design-tested under: Fire Prevention I90 – according to DIN 4106 Part 11, Sound insulation – according to DIN 4109 and Statics – according to DIN 4103

173-50070000-00

JOMO TGA kit for wash basins, for single lever basin mixer, for TGA installation media wall

173-50079000-00

JOMO TGA kit for wash basins, for wall fixtures, for TGA installation media wall

173-50140000-00

JOMO TGA kit for urinals, for installing UP-Urinal flushing devices, for TGA installation media wall

173-50300000-00

JOMO TGA kit for urinals, for installing AP-Urinal flushing devices, for TGA installation media wall

173-50870000-00

JOMO TGA kit for urinals, for installing JOMO infrared controlled IRS-U, with exterior work set, for TGA installation media wall

173-50880000-00

JOMO TGA kit for urinals, for JOMO installations TKS conductive control, with exterior work set, for TGA installation media wall

173-50080000-00

JOMO TGA kit for bucket sinks, for wall fixtures, for TGA installation media wall

173-50200000-00

JOMO TGA kit for AP water faucets, for 50-15mm gauge for TGA installation media wall

173-50930000-00

JOMO TGA kit laminated wood plate, for housing support and hand rails, 250 x 450 mm, incl. T-head bolts, for installation in TGA media walls

Accessories

173-50990000-00

JOMO TGA connector, for TGA perpendicular rail for installation in media walls

173-50920000-00

JOMO TGA wall fixture for media walls, for wall fixture, max. 370mm construction depth

173-50970000-00

JOMO TGA C-Profile 28 x 15 x 2.3 mm, 2000mm construction length, for housing TGA kits, for installation in TGA media walls
